Professional Summary

Software Developer with 1.7 years of experience in building interactive and responsive web applications using Vue.js and JavaScript. Skilled in developing dynamic front-end solutions, integrating APIs, and working in Agile environments.

Skills

Technical Skills:

- **Frontend Technologies:** Vue.js, Flutter, React.js JavaScript, HTML5, CSS3, Vuetify, TailwindCSS, Bootstrap, AxiosAPI.
- **Backend Technologies:** Grails ,Core JAVA.
- **Tools:** Visual Studio Code, IntelliJ IDEA, PostMan, SourceTree, XAMPP ControlPanel, Git and Github.

Education

- Dattakala Group of Institute (Electrical Engineering),Pune University (2017-2020)
- Dattakala Polytechnic (Electrical Engineering), M.S.B.T.E (2014-2017)
- Tuljaram Chaturchand College , HSC (2012)
- Shri Chhatrapati English Medium School ,SSC (2010)

Professional Experience

- **Edupluscampus**
Provides end-to-end Education Management solution to help you operate Education Management Software for school or college

Website: <https://www.edupluscampus.com>
Service Period: May 2023 – Present
Position: Junior Developer | FullStack Developer
 - Contributed to the development of ERP software tailored for the education sector, utilizing Vue.js for frontend functionality.
 - Handled live project issues,promptly resolving errors within tight deadlines while ensuring smooth user experience.
 - Collaborated with clients together requirements,implementing them effectively, and developed UI designs based on wireframes
- ✓ **Clients that I worked for :**
 - Vishwakarma Institute of Technology(VIT) Pune ,
 - Yashwantrao Bhonsale Institute of Technology,(YBIT)Sawan
 - Zeal College of Engineering and Research (ZCOER) Pune,
 - Sanjivani College of Engineering, Kopargaon,
 - Sir Parshurambhau (Autonomous) College (SP), Pune

✓ **Projects Worked On :**

Meeting Organizer System

- Developed a meeting management system for **VIT College Admin**, with features like **Agenda, Meeting of Minutes, Documents, Notifications, and Attendees**.
- Enabled admins to organize meetings between faculty and students, integrating **SMS, Email, and WhatsApp** for communication.
- Worked on both **frontend** and **backend**, ensuring seamless functionality

CRM Project

- Created and managed **master tables** with **CRUD operations** using a user-friendly UI.
- Focused on optimizing data flow and improving the user experience for admin operations.

TPO (Training and Placement Officer) System

- Designed and developed the **Login Page, Registration Form, and Forgot Password** functionality.
- Created responsive and visually appealing UI for TPO features.

Other Contributions : Made **UI changes** and implemented backend functionalities for existing projects.

Contributed to minor enhancements, bug fixes, and performance optimizations.

Application Scorecard (May 2023 – Dec -2024)

- Proficient in creating scalable and efficient single-page applications (SPA) using Vue.js and VueRouter.
- Skilled in creating mobile-first designs and ensuring seamless user experiences across devices using Vuetify and custom CSS.
- Experienced in implementing complex form validations using JavaScript and regular expressions.
- Expertise in integrating RESTful APIs using Axios and managing state with Vuex.
- Strong ability to debug, identify, and resolve issues, ensuring minimal downtime and optimal performance.
- Knowledge of npm and package management, ensuring proper dependency handling and version control.

✓ **Mobile Technology (Flutter)**

- Proficient in creating responsive and visually appealing UI design using Flutter widgets like Container, Row, Column, Stack, etc.
- Expertise in working with Stateless and Stateful widgets for efficient UI/UX development.
- Integrated REST APIs seamlessly with Flutter using http and Dio packages.
- Implemented dynamic routing with Navigator and onGenerateRoute for smooth navigation experiences.
- Hands-on experience in handling dependencies and package management using pubspec.yaml.

Key Achievements

- Delivered all tasks on time, ensuring high-quality deliverables in a fast-paced Agile environment.
- Successfully integrated backend services with Vue.js frontend, optimizing API response times.
- Enhanced mobile responsiveness across multiple projects, improving user satisfaction.
- Reduced development errors by implementing thorough debugging techniques, achieving a high rate of bug-free deployments.
